SKILLS

- **Languages**: C, C++, Java, Python
- **Frameworks:** Java Script, HTML, CSS
- **Tools/Platforms:** MySQL, Excel, Power BI, Jupyter Notebook, Visual studio code
- **Soft Skills:** Problem-Solving, Team Collaboration, Communications, Adaptability

PROJECTS

Distribution of Dugwells | GitHub — Apr 25

- Performed end-to-end analysis of dugwell datasets to study water distribution, depth variation, and regional patterns.
- Cleaned, transformed, and validated raw data for accurate statistical insights.
- Generated clear and effective visualizations to highlight key trends and insights using Python-based plotting libraries.
- Implemented reproducible analytical workflows to ensure consistent and reliable analysis, with clear documentation for easy interpretation and reuse.
- Analyzed regional variations to support data-driven conclusions on water availability.

Tech: Python, Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis (DA)

Sales and Performance and Profits Insights Board | LinkedIn — Apr 25

- Developed a fully interactive Excel dashboard to visualize key performance indicators and support data-driven decision-making.
- Built dynamic charts, pivot tables, slicers, and drop-down filters to enable multi-dimensional data exploration.
- Implemented automated calculations using advanced Excel functions (INDEX–MATCH, IF, SUMIFS, etc.) for real-time updates and error-free reporting.
- Designed a clean, executive-level layout with clear segmentation for trends, comparisons, and metric tracking.
- Enhanced dashboard interactivity and usability through optimized formulas and structured data modelling

Tech: Microsoft Excel, Pivot Tables, Data Cleaning, Data Visualization.

TRAINING

Data Structures and Algorithms in Java | Cipher Schools | Certificate — Jul 25

- Built a console-based app that helps users track their mental well-being.
- Used basic OOP concepts to keep the code organized and easy to improve.
- Added simple data structures to store user records and track moods over time.
- Designed the system using modular, Object-Oriented architecture to ensure clean structure, easy updates, and scalability.
- Practiced logical problem-solving and algorithmic thinking through hands-on Java exercises.

Tech: Java, OOP, Data Structures, Modular Programming.

CERTIFICATES

- The Bits and Bytes of Computer Networking | Coursera | Certificate — Jun 23
- Mastering in C: Basic to Beyond | CSE Pathshala | Certificate — Mar 24
- Java and C++ Developer Certification | Data Pro | Certificate — Sept 24
- Introduction to Hardware and Operating Systems | Coursera | Certificate — Oct 24

EXTRA-CURRICULAR ACTIVITIES

Active NSS (National Service Scheme) Volunteer: — May 25

- Participated in social service initiatives, awareness drives, and campus community programs.
- Assisted in organizing cleanliness drives, tree plantation programs, and health awareness campaigns.
- Engaged with local communities to spread awareness on education, hygiene, and environmental protection.

NGO Service (Vizag): — May 25

- Served as a volunteer for an NGO in Vizag, contributing to community development and outreach activities.
- Gained hands-on experience in social work, teamwork, and community engagement.

EDUCATION

Lovely Professional University — Hardaspur, Punjab
Bachelor of Technology - Computer Science and Engineering — Since Aug 23

Sasi Junior College — Visakhapatnam, Andhra Pradesh
Intermediate; Percentage: 90% — Apr 21 – Mar 23

Delhi Public School — Visakhapatnam, Andhra Pradesh
Matriculation; Percentage: 81% — Jun 20 -Mar 21
